DESCRIPTION

Our innovative wheelchair passage platform is specially designed for deployment in challenging terrains and hard-to-access areas, ensuring a safe and reliable passage for wheelchair users. Its telescoping design enhances adaptability, making it highly useful for camping and overcoming obstacles for people with limited mobility. The ribbed surface provides unmatched grip capabilities for added security. This product exemplifies excellence, constructed from premium-grade aluminum that adheres to the stringent EN and CE standards. The innovative interlocking aluminum profile design ensures steadfast support for weights up to an impressive 662 lbs! Weight - 25.6 lbs., Min Length (folded) - 6 ft. 5 in., Max Length (extended) - 9ft. 10 in., Min Width - 11.26 in., Max Width - 12.52 in., Min Thickness - 2 in., Max Thickness - 2.36 in., Overlap distance when fully extended - 28 in., (according to the attached image with dimensions) GERMAN BRAND & GERMAN ENGINEERING. EXCEPTIONAL CUSTOMER SERVICE Installation is a breeze, thanks to the user-friendly design that allows for super-fast deployment. Our platform is ingeniously engineered to be used at any length between the minimum and maximum values. Equipped with Integrated aluminum maximum length stoppers. Choosing our products signifies a commitment to superior quality. Our manufacturing process utilizes thicker gauge materials, enhancing strength and stability. With years of specialized experience in ladder and ramp production, we, as a German brand, offer steadfast support and stand by our products in the long term. The use of the highest quality aluminum guarantees the robustness and longevity of our exceptional products.
