DESCRIPTION

The MG24 is a lightweight and durable marine gangway ramp designed for safe and easy boarding on boats and yachts. Built from seawater-resistant aluminum, it combines strength with portability, supporting up to 330 lbs. Its foldable design allows for compact storage and effortless handling, while the non-slip surface ensures secure footing in all marine conditions. Perfect for leisure craft and sailing vessels, the MG24 reflects German engineering excellence, delivering reliability, safety, and convenience for long-term use at sea.

FEATURES

<i>Peso Bruto:</i>	19.18 lb
<i>Altura (con embalaje):</i>	3.94 inch
<i>Longitud (con embalaje):</i>	48.03 inch
<i>Anchura (con embalaje):</i>	16.54 inch

DESCRIPTION

The MG120 is a compact, non-foldable gangway ramp designed for safe and stable boarding in marine environments. At just 4 ft in length and 16 in wide, it is perfectly suited for short access points on boats and yachts where space is limited. Built from premium seawater-resistant aluminum, it combines lightweight portability with long-lasting durability. A sturdy non-slip surface ensures safe footing, while the included handrail provides added security and confidence during use. With a 330 lb weight capacity, the MG40-H delivers practical reliability in a simple, ready-to-use design.

<i>Anchura (con embalaje):</i>	31.5 inch

DESCRIPTION

The WG6 is a foldable wheelchair access ramp engineered to provide safe, stable, and convenient accessibility. Measuring 6 ft in length and 30 in wide, it is ideal for navigating steps, thresholds, and raised entryways. Built from durable aluminum, the WG6 supports loads up to 660 lbs while remaining lightweight and resistant to rust. The integrated dual handrails offer added safety and stability for users, while the foldable design ensures compact storage and easy transport. Designed with a non-slip surface for secure footing.
