FEATURES

Gross Weight:	42.02 lb
Height (with packaging):	39.17 inch
Length (with packaging):	8.46 inch
Width (with packaging):	20.87 inch

DESCRIPTION

Multipurpose one of a kind telescopic ladder. Due to its unique design they are perfectly suited and easy to transport, easy to store and they replace many other standard types of ladders. They will purposely serve in private and trade sectors. These highly durable ladders were manufactured using high quality aluminum combined with new technologies and thus creating a heavy duty piece of equipment providing stability in the work environment. Multipurpose ladder advantages: Safe working load - 150kg. Manufactured as per European safety standard EN131. Ability to amend working length or height swiftly, bend them in half, shorten each end individually which makes them ideal to use when working on stairs or uneven surfaces. Heavy duty rubber pads provide superior resistance to wear and ensures solid grip with working surfaces leaving no scratches. Stabilizer adds even more stability and rigidity when ladder is being used.

Measurements of the ladder are:

Height	-	5 m (16' 4")
A Frame height	-	243cm (8')
Rungs	-	2 x 8
Folded size	-	94cm x 47cm x 20cm
Width (top)	-	46 cm
Width (bottom)	-	48cm
Width (stabilizer)	-	68 cm
Inner width between side rails	-	31.8 cm
Weight	-	19.7 kg
