FEATURES

Gross Weight:	21 lb
Height (with packaging):	31 inch
Length (with packaging):	5 inch
Width (with packaging):	22 inch

DESCRIPTION

Technical Specifications: Size: 30 in. (width) x 34.3 in. (length), Weight: 20.3 lbs. Maximum load capacity of 662 pounds. Foldable design Enhanced Versatility: With an adjustable height feature ranging from 2 in. to 6 in., (precise adjustments in 0.04 inch increments) this ramp ensures seamless adaptability for a multitude of tasks. Included in the package are two sets of extensions, allowing users to customize the ramp's height according to their needs. For lower elevations, the platform can be utilized without extensions, providing a tailored solution for various scenarios. Crafted with precision, this ramp adheres to the rigorous standards of EN-131 and CE, guaranteeing both safety and reliability in its design and construction. No assembly needed – this ramp offers instant convenience for effortless mobility in wheelchairs, scooters, wheelbarrows, and more. Its uncomplicated yet robust anodized aluminum construction guarantees durability without the worry of rusting. The simplicity extends to its easy removal when necessary. Priority is given to safety with a non-slip surface, ensuring users can navigate confidently. An ideal solution for seamless and secure accessibility.
